

Construction Computing

Media Information 2026

"The definitive guide to the Construction Market for over 15 years."

Trusted and Insightful Editorial

Established for over 15 years, **Construction Computing** is focused exclusively on I.T. Solutions for the Construction Industry. It is read by Construction Professionals throughout the industry.

Key areas such as Building Information Management (BIM) collaboration, project management and vertical market specialisations are covered on a regular basis alongside new product reviews,

case and technical studies.

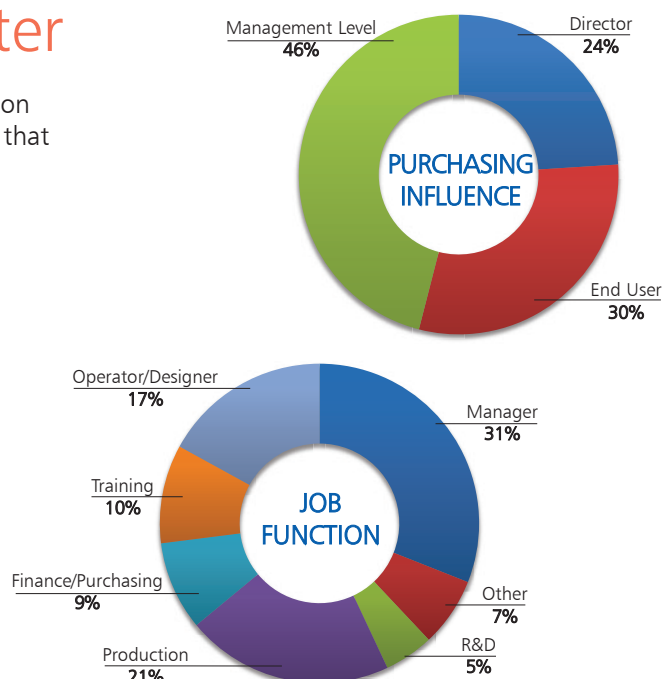

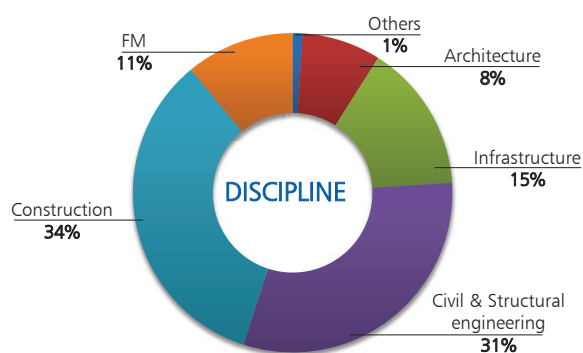

Every issue features independent news from across the AEC industry and includes:

- New product announcements
- Industry news
- Product Reviews
- BIM
- Architecture
- Civil engineering

- Building & Construction
- Facilities Management
- Building Services
- Structural Analysis
- Mapping
- Process, Plant & Piping
- Collaboration
- Case studies/user profiles
- Exhibition and events previews
- Project Management

Reaching People that Matter
